

Conclusion of an MOU Between METAS and NMIJ

On 22nd June 2023, Dr. RICHARD Philippe, Director of Federal Institute of Metrology (METAS), and Dr. USUDA Takashi, Director General of National Metrology Institute of Japan (NMIJ), signed a specific memorandum of understanding (MOU) between the two institute at the International Bureau of Weights and Measures (BIPM), Sèvres, France, where they were visiting for the meeting of the International Committee for Weights and Measures (CIPM).

METAS is the national metrology institute of Switzerland. In accordance with the MOU, METAS and NMIJ will strengthen relationships, especially in the technical fields of quantum sensing and quantum technology, kibble balance, and particle metrology.
