

**Department of
Life Science and Biotechnology
in AIST**

Organization of AIST

Chief Executive Officer

Organization Chart of Dept. of Life Sci. Biotech.

Research Activities at regional sites

AIST Kansai

Medical technology,
Biodegradable plastics, etc.

AIST Hokkaido

Bioproduction,
Bio-IT technology

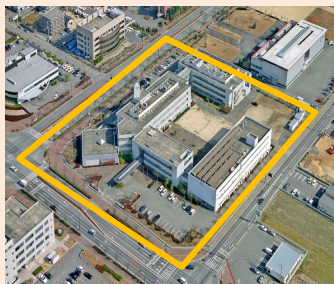

AIST Tsukuba

Medical technology,
Medical Device,
Bioproduction,
Advanced Bioanalysis, etc.

AIST Shikoku

Medical device,
healthcare

AIST-Waseda Univ.
CBBD Lab

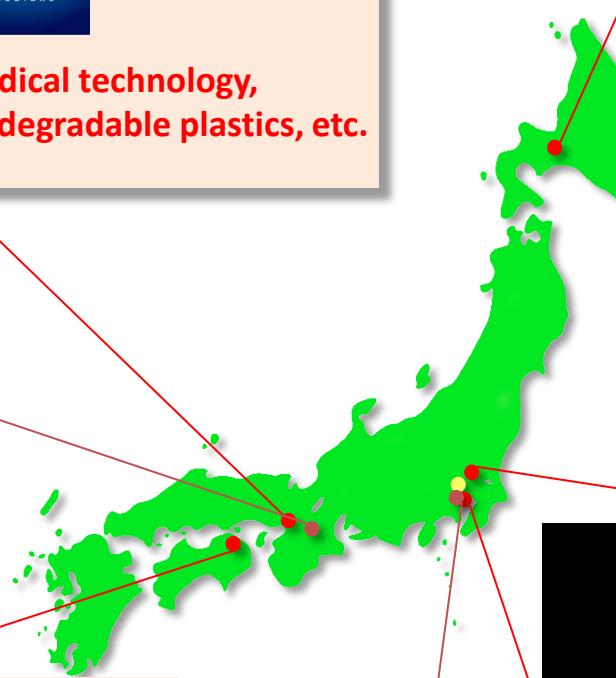

AIST Tokyo Waterfront

Advanced
Biotechnology

AIST-Osaka Univ. Advanced
Photonics Lab

Missions and Strategies

We solve the social problem such as the declining birthrate and aging population.
We contribute to economic growth and industrial competitiveness.

Exploration
Evaluation
of drug candidate

Medical devices

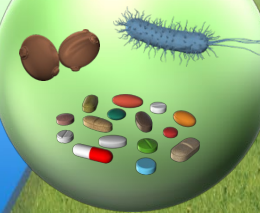

Diagnostic
Technology

Health Care

Circulation of
Bio-Resources

Bio Process

Pharmaceutical
Manufacturing
Technology

Exploration of
Bioresources

To realize a healthy lifestyle
Next Generation Medical
Infrastructure

To realize a Bio-economic society
High utilization of Biological
resources

Advanced Bio Analytical technology

To realize a Biodata-driven society by development of
fundamental technologies to innovations

Central collaborative partner in technology
