

リン酸化解析の「真打ち」登場

Novel kinase-activity profiling system for drug discovery

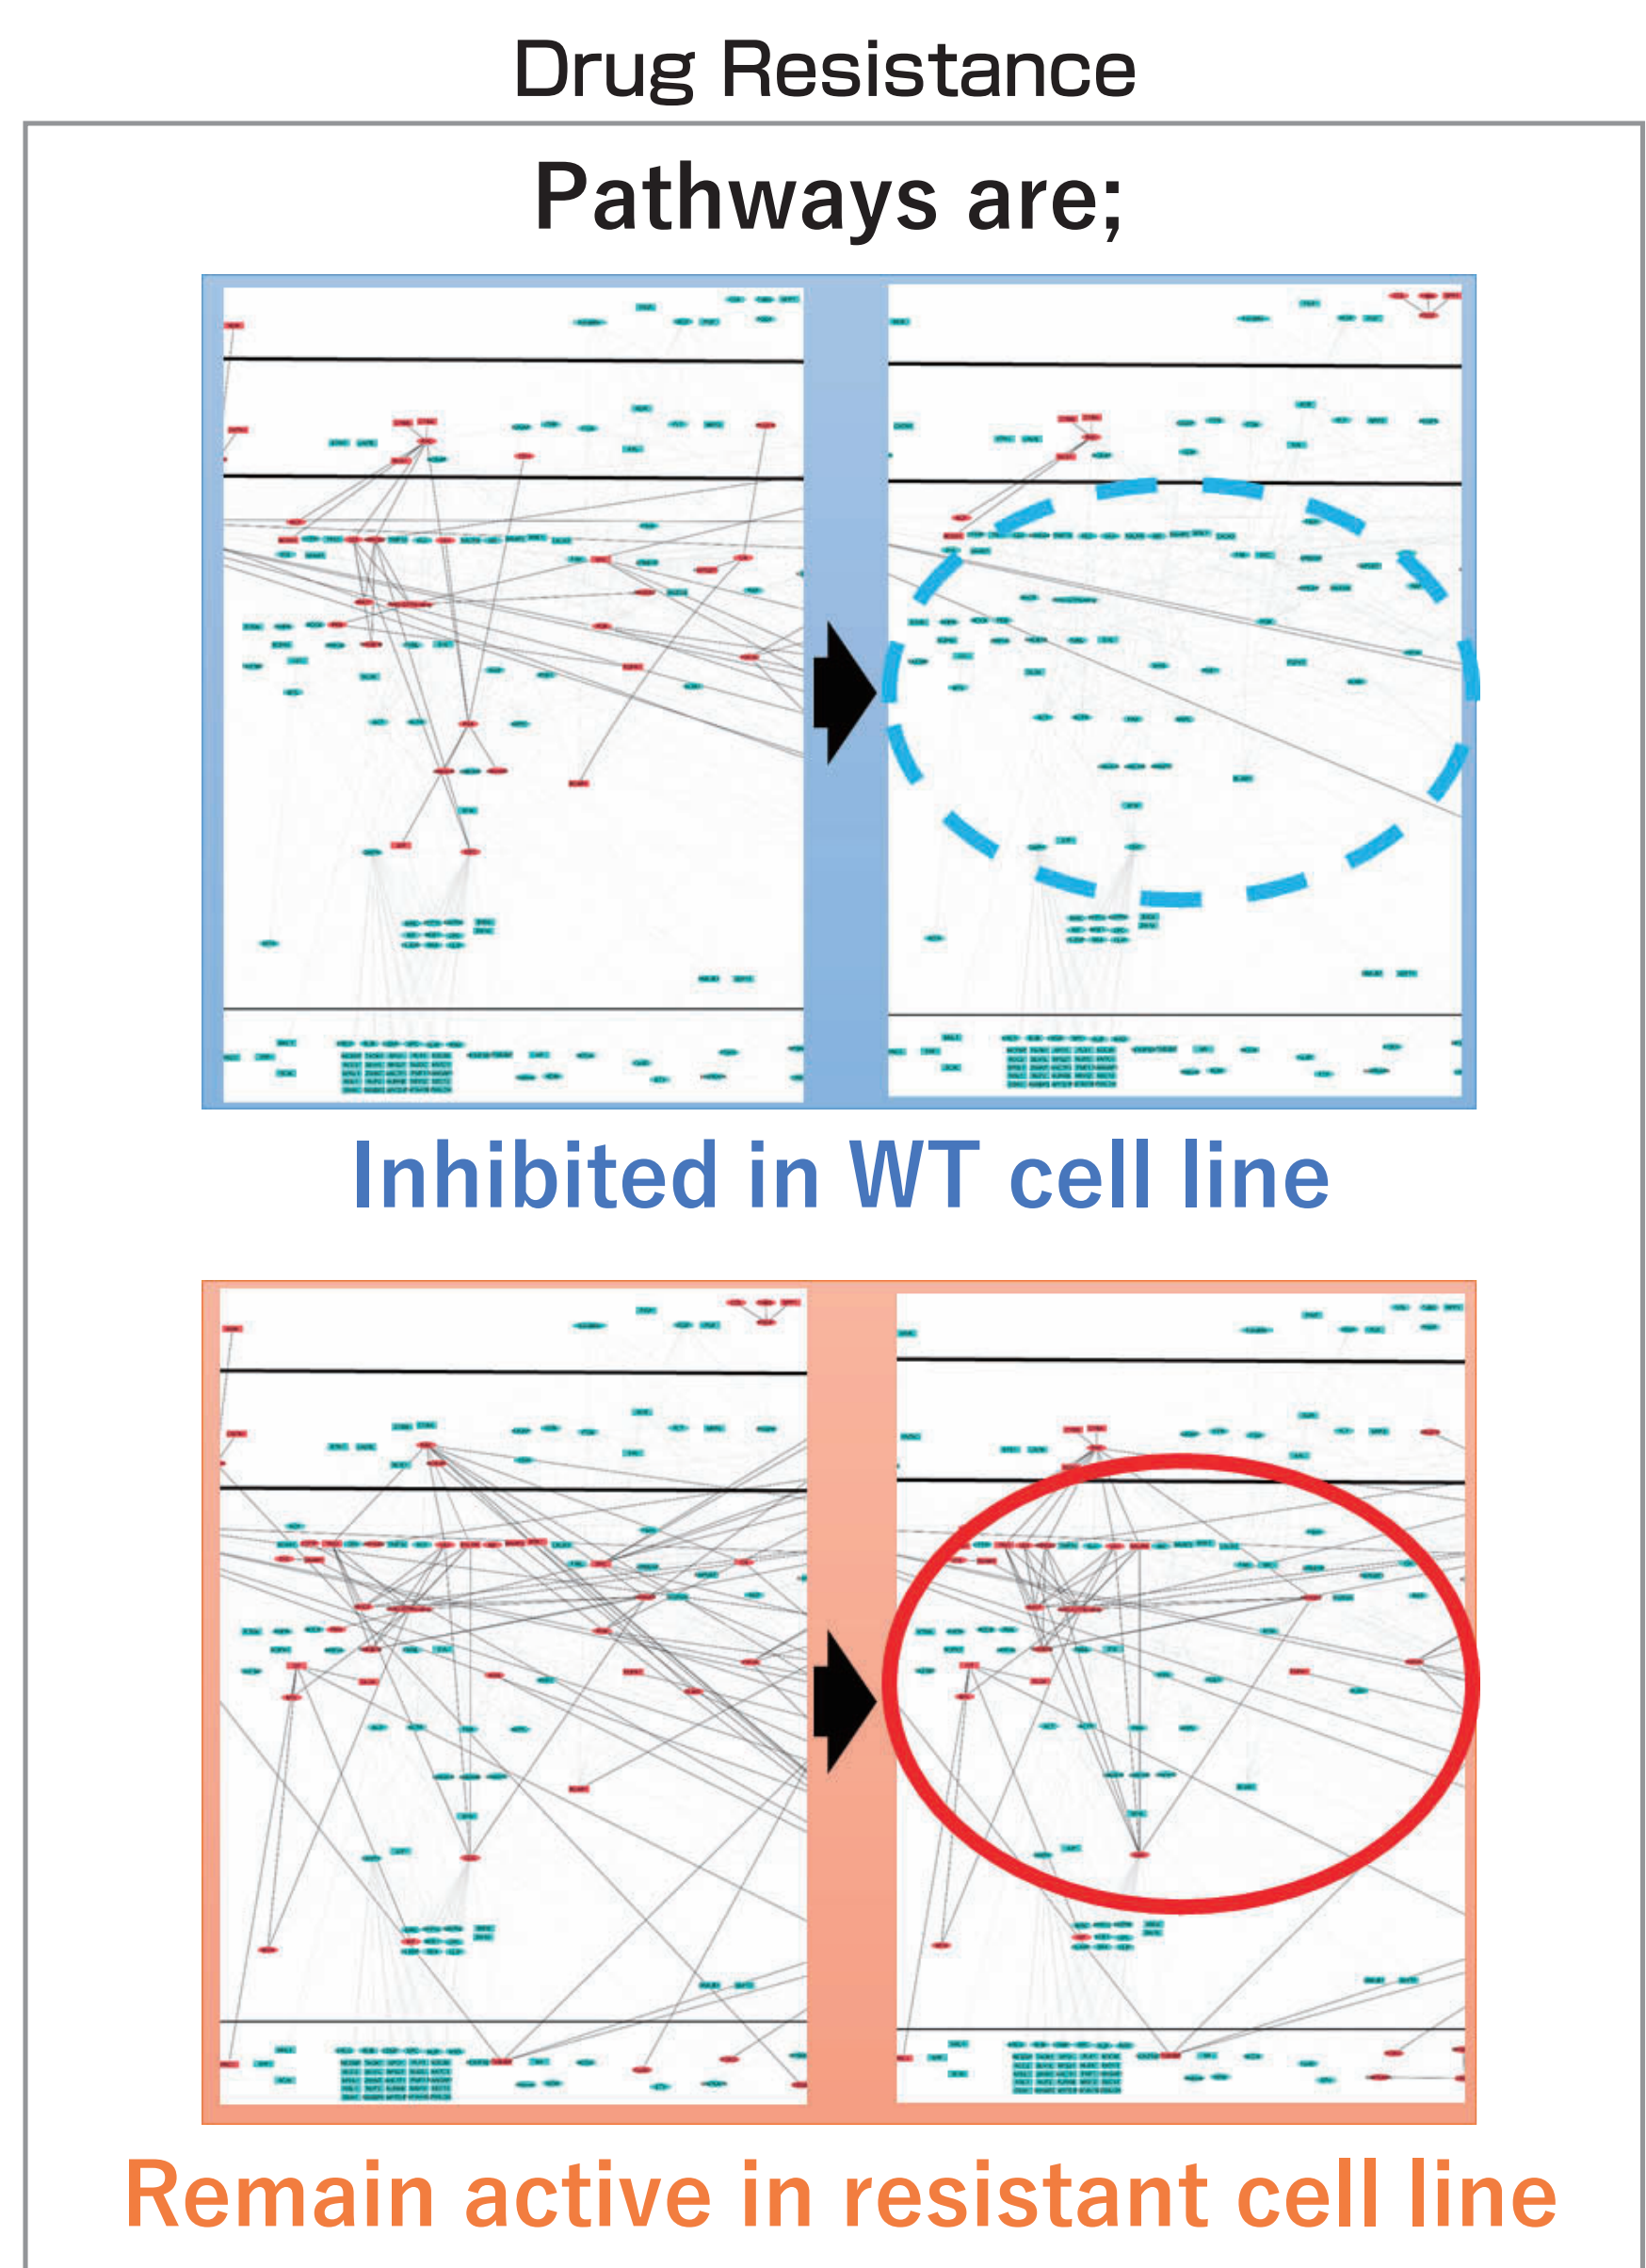

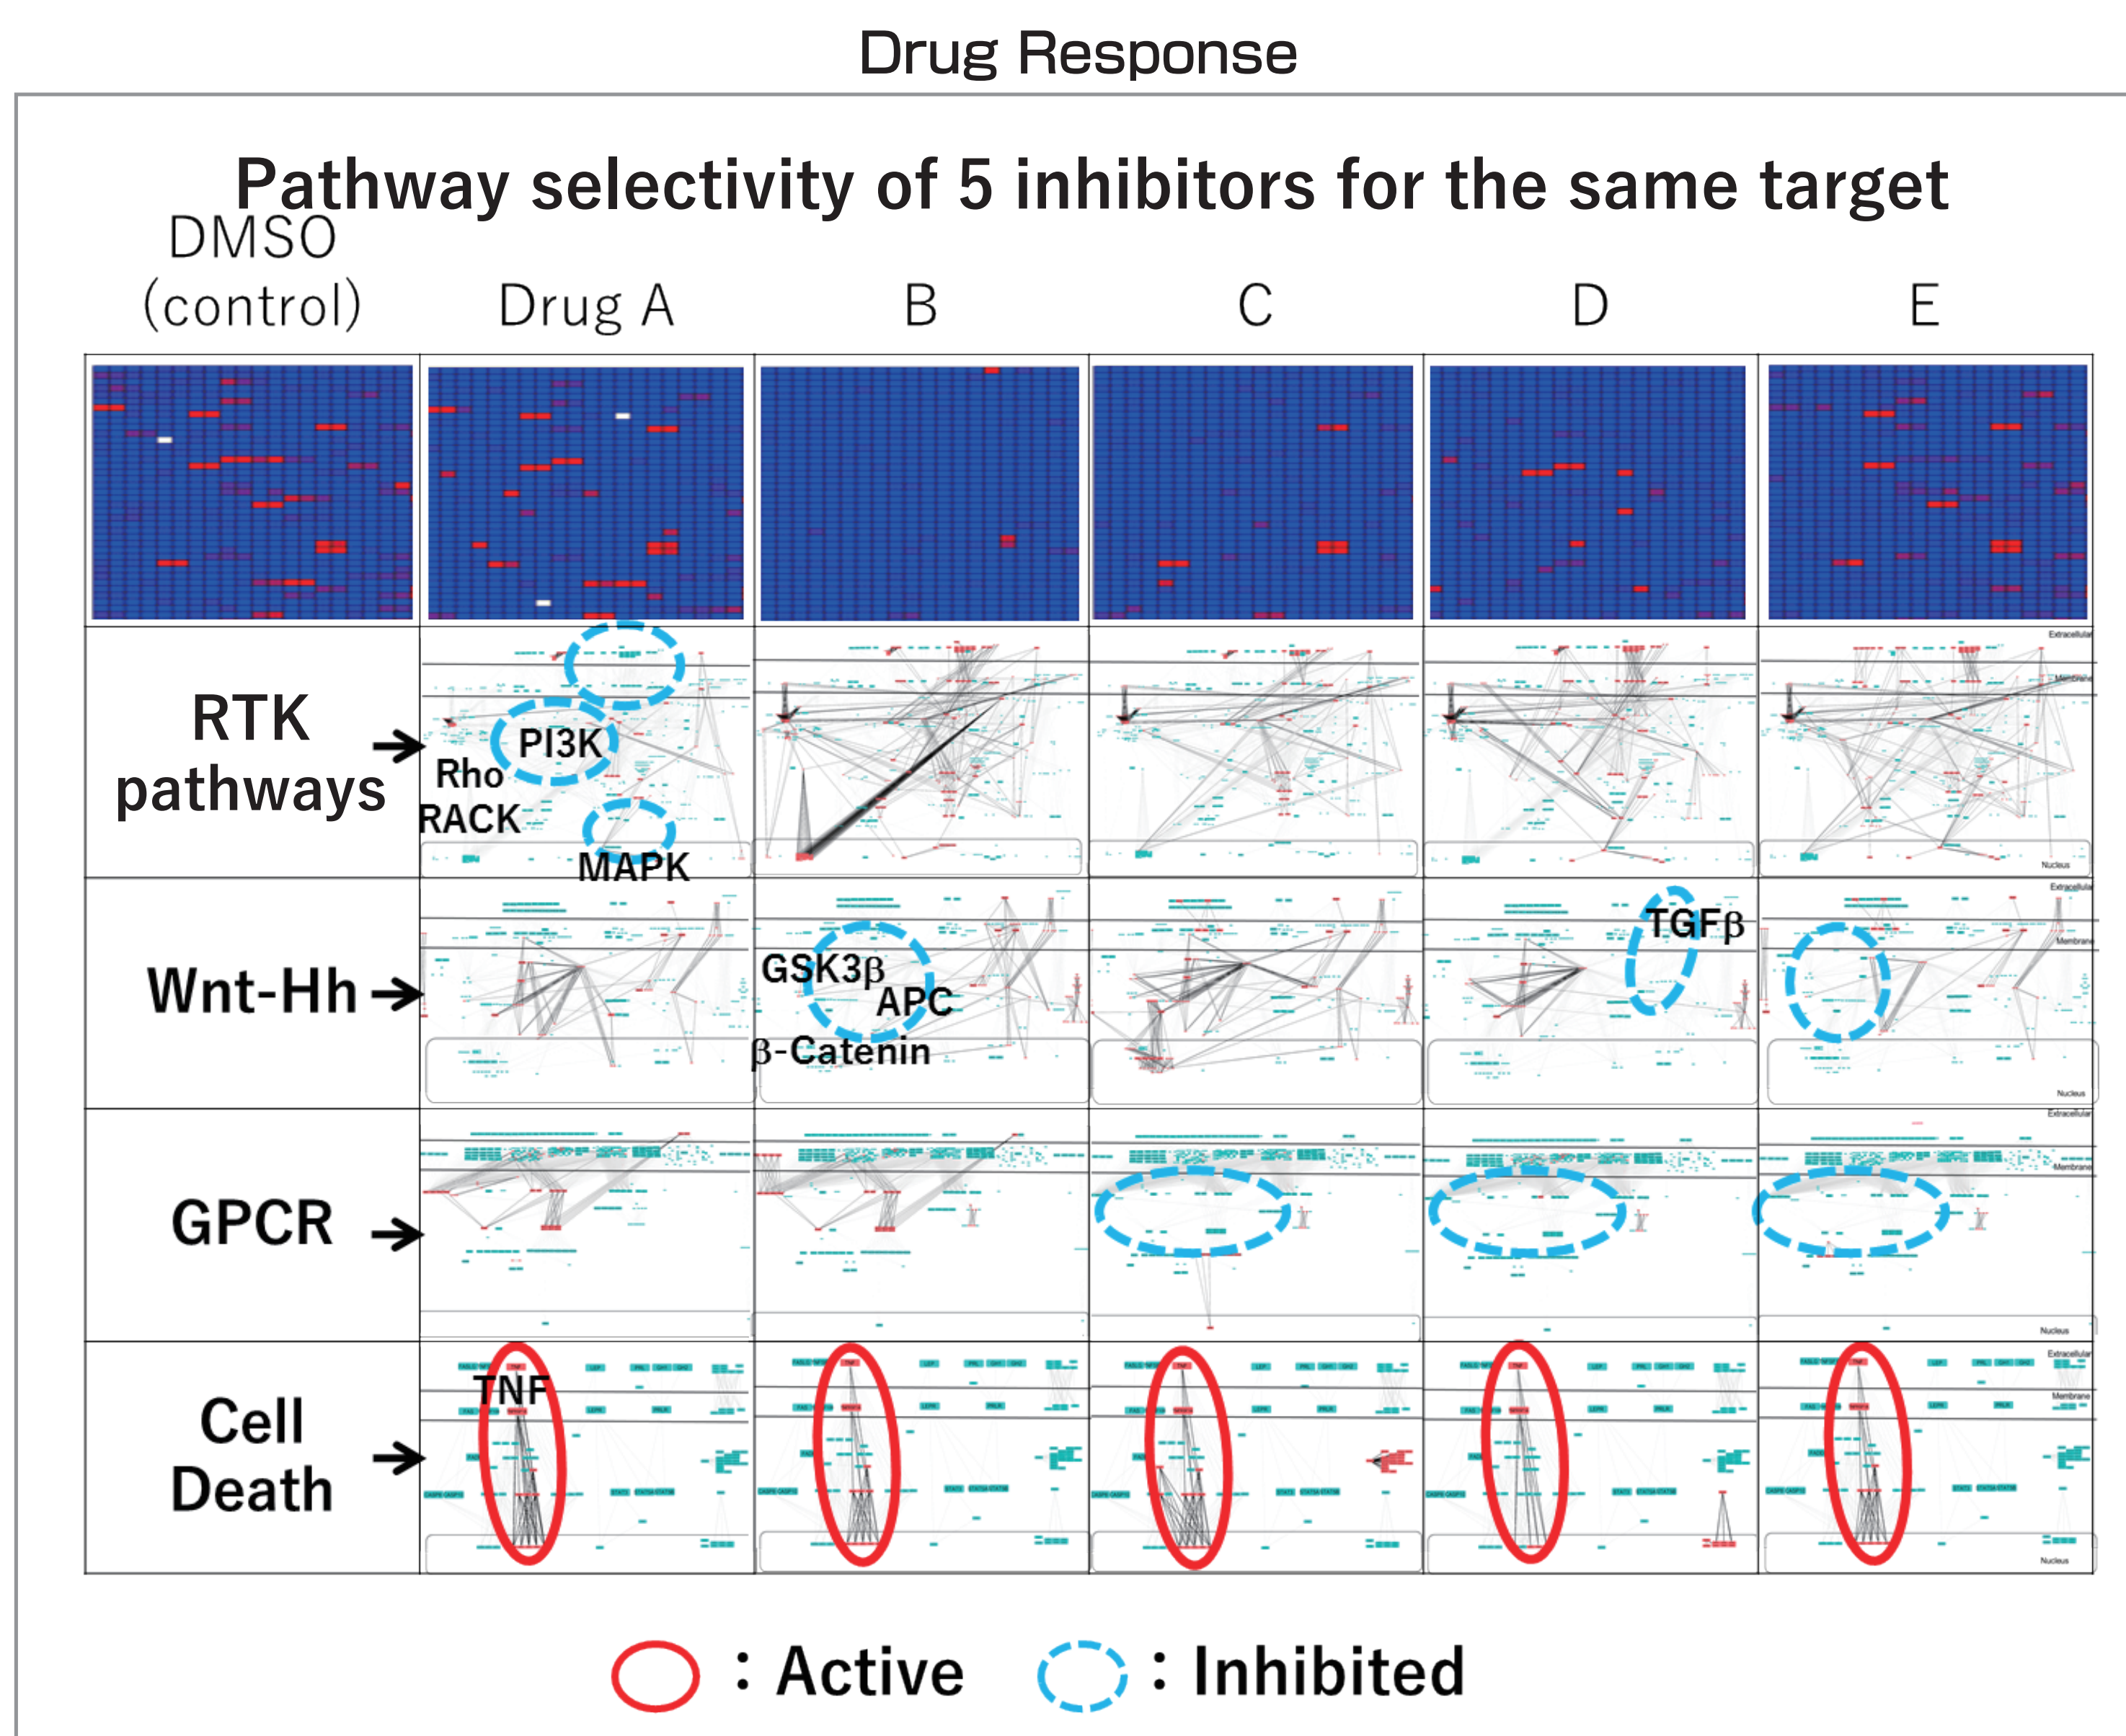

細胞や検体のシグナル伝達経路を解明
Landscape of signal transduction dynamics

- ▶ **リン酸化活性を体系的にプロファイリング**
Novel one-step HTP system to identify activated signaling pathways
- ▶ **300以上のシグナル伝達経路のリン酸化活性を可視化**
Provide landscape of pathway activity in the entire signal transduction network
- ▶ **計測→評価→解釈のパッケージ化**
Comprehensive protein phosphorylation analysis as a new omics layer of protein modification

Novel one-step system to identify activated signaling pathways

landscape of pathway activity in the entire signal transduction network
