

# Safety Data Sheet

#### 1. Identification of the Substance/Mixture and the Supplier

Supplier	:	National Institute of Advanced	l Industrial Science a	anc	l Technology (AIST)
Address	:	1-3-1 Kasumigaseki, Chiyoda,	Tokyo, Japan		
Office in Charge	:	Reference Materials Office, Ce	enter for Quality Man	nag	gement of Metrology,
		National Metrology Institute of	of Japan		
Person in Charge	:	Certified Reference Material S	Staff		
Telephone No.	:	+81-29-861-4059	Fax No.	:	+81-29-861-4009
<b>Emergency</b> Contact	:	Same as above			
			Prepared on	:	November 30, 2017
			Revised on	:	June 14, 2018
			Reference No.	:	4403001
Identity of	:	Certified reference material	NMIJ CRM 4403-a		
Substance/Mixture		Sulfur Hexafluoride and Teta	rafluoromethane in N	Jit	rogen (Emission Level)
Recommended Use of the Chemical and Restriction on Use		This certified reference mate analytical instruments. Do n purposes than testing/resear	ot use this reference		

#### 2. Hazards Identification

GHS classification	Oxidizing gas	:	Not classified
	Gas under pressure	:	Compressed gas
	Acute toxicity (Oral)	:	Not applicable
	Acute toxicity (Dermal)	:	Not applicable
	Acute toxicity (Inhalation, gas)	:	Not classified
	Skin corrosivity/irritant	:	Not applicable
	Severe eye damages/eye	:	Not applicable
	irritant		
	Respiratory sensitization	:	Not applicable
	Skin sensitization	:	Not applicable
	Germ-cell mutagenicity	:	Not applicable
	Carcinogenicity	:	Not applicable
	Reproductive toxicity	:	Not applicable
	Specific target organ toxicity/systemic toxicity (Single exposure)	:	Not applicable
	Specific target organ toxicity /systemic toxicity (Repeated exposure)	:	Not applicable
GHS label element:			
Signal word:	Warning		

	June 14, 2018
Hazards Statement :	Gas under pressure: May explode if heated
Other Hazards	In case of inhalation of high-concentration nitrogen gas: May die from
Statement :	deficiency of oxygen.
	May cause eye damage or loss of vision if gas is blown out from container of
	gas under pressure and caught in eyes.
Precautionary	[Precaution]
Statement :	Use in a well-ventilated area.
	Wear personal protective equipment.
	[Action]
	If inhaled: If breathing is difficult, remove victim to fresh air and keep at
	rest in a position comfortable for breathing.
	If experiencing respiratory symptoms: Call a doctor/physician. [Storage]
	Protect from sunlight and store in a well-ventilated place.
	[Disposal]
	Dispose of contents little by little in a well-ventilated place free from fire and combustible materials so as not to induce risks.
	Return this reference material back to the function in charge given in "1.
	Identification of the Substance/Mixture and the Supplier" when it becomes
	no longer necessary to use it or when it becomes beyond its shelf life.
	The other hazards than the above do not result in classification or are not classifiable.

# 3. Composition/Information on Ingredients

NameCertified reference material NMIJ CRM 4403-a Sulfur Hexafluoride and Tetrafluoromethane in Nitrogen (Emission Level)Ingredient 1.Chemical name?Synonym?Synonym?Chemical formulaN2Molecular weight?28.01CAS number?7727-37-9Content?Reference Number in GazettedAct on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc.Ingredient 2Chemical nameSulfur hexafluorideSynonym?Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc.Ingredient 2Chemical nameSulfur hexafluorideSynonym?Synonym?1000000000000000000000000000000000000	Substance or mixture	:	Mixture

Ingredient 3		
Chemical name		Tetrafluoromethane
Synonym	:	Perfluoromethane, carbon tetrafluoride, Freon-14
Chemical formula	:	$\mathrm{CF}_4$
Molecular weight	:	88.01
CAS number	:	75-73-0
Content		About 100 µmol/mol (0.01 %)
Reference Number in Gazetted	:	Act on the Evaluation of Chemical Substances and Regulation
List in Japan		of Their Manufacture, etc. : (1)-131, (2)-52
		Industrial Safety and Health Act : Published
Hazardous Component	:	Notrogen (asphyxiationg gas)

If inhaled	: Re	move victim to fresh air and keep at rest and warm.
	Ify	you feel unwell, get medical advice/attention.
If on skin		en if exposed to atmospheric-pressure nitrogen gas: No need to get
		edical advice/attention in particular.
	Ifs	skin irritation occurs: Get medical advice/attention.
If in eyes	: If e	exposed to blown-out gas: Keep eyes cool and immediately get
	me	edical advice/attention.
	If€	eye irritation persists: Get medical advice/attention.
If swallowed	: Rin	nse mouth.
	If y	you feel unwell: Get medical advice/attention.
The Most Critical	: Ifi	nhaled (compressed gas): Loss of consciousness, Sense of physical
Characteristics and	we	akness, Suffocation
Symptoms of Expected	In	case of high concentration in air: Deficiency of oxygen induces risks
Acute Symptoms and	of l	loss of consciousness or death.
Delayed Symptoms		
Protection of First-Aid	: Ме	easure oxygen concentration when entering affected area.
Responder	Sir	nce oxygen concentration in air may be decreased, ventilation must
	be	provided and personal protective equipment for breathing such as
	cor	npressed air open-circuit self-contained breathing apparatus must
		used as necessary.

#### 4. First-aid Measures

# 5. Fire-fighting Measures

Extinguishing Media	:	Water fog, Foam extinguishing agent, Dry chemical extinguisher, Carbon dioxide, Dry sands
Unsuitable extinguishing media	:	Direct water jet
Fire-Specific Hazards	:	Container may explode if heated. Burst container may fly.
Specific Fire-Fighting Method	:	Move containers away from fire if this can be done without risk. Keep cooling container thoroughly with plenty of water even after extinction. Do not spray water directly to gas leaking point or safety device, which may make them frozen.

NMJ Nat	ional Institute of Advanced Industrial Science and Technology (AIST) June 14, 2018
	Only experts are allowed to handle damaged container.
Protection of Fire-Fighters	Fight fire upwind in order to avoid breathing hazardous gas.
	Wear personal protective equipment such as fireproof clothing,
	heat-resistant clothing, protective clothing, compressed air
	open-circuit self-contained breathing apparatus, and compressed
	oxygen closed-circuit self-contained breathing apparatus.

# 6. Accidental Release Measures

.

Personal Precaution	:	Wear appropriate personal protective equipment (See "8. Exposure
		Controls/Personal Protection" during the operation to avoid contact with
		eyes and skin and inhalation of gas.
		Do not touch or walk in leaked materials
		Immediately designate restricted leakage area with appropriate
		distance taken in every direction.
		Keep out unauthorized people.
		Stay upwind.
		Ventilate leakage area.
		Maintain the restricted area until gas diffuses.
Personal Protective	:	Ventilate affected areas thoroughly, if it is in an indoor environment,
Equipment and		until the clean-up operation is completed.
Emergency Procedures		Wear appropriate personal protective equipment (See "8. Exposure
		Controls/Personal Protection") during the operation to avoid contact
		with eyes and skin and inhalation.
Environmental Precautions	:	No environmental effects
Recovery and Neutralization	:	Stop leakage if safe to do so.
Prevention of Secondary	:	Prevent leaked materials from entering sewers, drainage systems,
Disaster		basement rooms or confined space.
		Mark the restricted area with rope etc. to keep out unauthorized people.
		Carry out the clean-up operation from the upwind side and make people
		on the downwind side evacuate.

# 7. Handling and Storage

Handling Engineering Precautions	:	Strict ban on fire. Keep away from hot surfaces and sparks and avoid contact with strong oxidizers. Use local ventilation equipment.
Local and General Ventilation	:	Provide local and general ventilation stipulated in "8. Exposure Controls/Personal Protection."
Precautions for Safe Handling	:	<ul> <li>Avoid rough handling such as knocking over, dropping, giving a shock to and dragging container.</li> <li>Keep container tightly closed after using this reference material.</li> <li>Take off removable protection cap before use. Keep removable protection cap firmly in place when not in use</li> <li>Restrict drinking, eating and smoking to a designated area.</li> <li>Make a place handling this reference material a restricted area to keep out unauthorized people.</li> </ul>

NMJ	

·		Use local ventilation equipment in indoor handling areas.
Storage		
Appropriate Storage	:	Store in designated container storage area for flammable gas and toxic
Conditions		gas. Store fully-charged containers separately from containers with
		residual gas.
		Keep away from combustible materials.
		Store in a well-ventilated place.
		Keep away from flame and sparks. Protect from fire flakes.
		Do not store in the vicinity of electric wires or ground wires.
		Store in a well-drained and well-ventilated dry place.
		Protect from exposure to corrosive ambience or continuous vibration.
		Protect from direct sunlight and keep temperatures at 40 $^{\circ}\mathrm{C}$ or below.
		Store locked up.
Incompatible	:	-
Substances		
Safe Container	:	Use container stipulated in the High Pressure Gas Safety Act and the
Packaging Material		United Nations Recommendations on the Transport of Dangerous
		Goods.

% See the Certificate for the details on appropriate storage conditions and instructions for use as a reference material.

Administrative levels		
Not established		
Occupational exposure limit	(S	ulfur Hexafluoride and Tetrafluoromethane in Nitrogen)
• ACGIH TLV-TWA		: Suffocation gas
<ul> <li>Japan Society for</li> </ul>		: Not established
Occupational Health		
Recommended Reference	ce	
Value		
Facility engineering control		
Ventilation, exhaust	:	Local ventilation system or General ventilation system
Safety management, gas	:	Measuring equipment, Detecting
detection		
Storage precaution	:	Keep away from direct sunlight in a well-drained and well-ventilated
		area.
Protective equipment		
Respiratory organ	:	Wear appropriate respiratory protective equipment such as air
		respirator if necessary.
Hand	:	Wear leather gloves etc.
Eyes	:	Wear eye / face protection such as safety goggles.
Skin and body	:	Wear appropriate protective equipment such as safety shoes.
Hygiene Controls		
Handle this reference met	-011	al in accordance with industrial health and safety standards

Handle this reference material in accordance with industrial health and safety standards.

#### 9. Physical and Chemical Properties

As the ingredients are mostly nitrogen, the properties of nitrogen are described.

National Institute of Advanced Industrial Science and Technology (AIST) June 14, 2018

			0000 11, 201
Appearance, etc.	:	Compressed gas	
Color	:	Colorless transparent	
Odor	:	Odorless	
pH	:	No data	
Melting point	:	−210 °C	
Boiling point	:	−196 °C	
Flashing point	:	Nonflammable	
Explosive range	:	Nonflammable	
Vapor pressure	:	No data	
Relative vapor	:	0.967	
density(Air=1)			
Specific gravity or bulk	:	1.25 kg/m³ (0 °C, 101.3 kPa)	
specific gravity			
Solubility	:	$1.52 \text{ mL}/100 \text{ mL H}_2\text{O}$ (20 °C, $101.3 \text{ kPa}$ )	
n-Octanol/water partition	:	$\log P = 0.67$	
coefficient (Log Po/w)			
Auto-ignition temperature	:	-	
Decomposition temperature	:	-	
Flammability	:	Nonflammable	

### 10. Stability and Reactivity

Stability	:	Stable under normal condition
Possibility of hazardous	:	When heated, pressure rise occurs with the risk of explosion.
reactions		Suffocation gas
Conditions to avoid	:	Heat
Incompatible materials	:	No data
Hazardous decomposition	:	No data
products		

# 11. Toxicological information

Acute toxicity		Oral: No data Skin: No data
Skin corrosivity/	:	No data
irritation		
Severe damage to	:	No data
eyes/ eye irritation		
Respiratory	:	No data
sensitization		
Skin sensitization	:	No data
Germ cell	:	No data
mutagenicity		
Carcinogenicity	:	No data
Reproductive toxicity	:	No data
Specific organ	:	No data
toxicity/(single		Nitrogen is present in the air at a high concentration (80% or more), and
exposure)		is a simple asphyxia without any other physiological effects from

toxicological viewpoint (ACGIH (2001)). No data

Specific organ toxicity/(repeated exposure)

#### 12. Ecological Information

Hazardous to the	;	No data
aquatic environment,		
short-term (Acute)		
Hazardous to the	:	No data
aquatic environment,		
long-term (Chronic)		
Ecotoxicity	:	No data
Persistence and	;	No data
Degradability		
Bioaccumulation	:	No data

:

#### 13. Disposal Considerations

Residual waste :	Return the unnecessary cylinder to the gas supplier. Incinerate in an incinerator equipped with scrubber. Dispose of this reference material in accordance with applicable legislation and local government ordinance. When the above-mentioned treatments are not possible, entrust disposal of residual waste to a professional waste
	disposal company licensed by prefectural governor.
Contaminated : container and package	Dispose of this CRM in accordance with applicable legislation and local government ordinance. Entrust disposal of this CRM to a professional waste disposal company licensed by the prefectural governor. Inside Japan, return the used empty and unnecessary cylinders to the office in charge shown in "1. Identification of the Substance/Mixture and the Supplier", when it is no longer needed or exceeds its shelf life. The owner of the cylinder is National Institute of Advanced Industrial Science and Technology (AIST). The User must not dispose of cylinder without the owner's consent.

### 14. Transport Information

UN Number	:	1066 (Nitrogen)
UN Classification	:	Class 2.2 (Nitrogen)
Material name	:	NITROGEN COMPRESSED
Container grade	:	-
ICAO/IATA	:	Class 2.2 (Nitrogen)
Marine pollutant	:	-
Precautions	:	Transport this reference material carefully while keeping it away from direct sunlight and fire and preventing accidental release due to falling, overturning, etc.

#### 15. Applicable Laws and Regulations

 $\bigcirc$ High Pressure Gas Safety Act

•Compressed gas (Article 2-1)

·Inert gas (general high pressure gas safety regulation Article 2-4)

◇Civil Aeronautical Act:

•High Pressure Gas (Regulation Article 194 Notification of dangerous goods Appendix No. 1) ♦Ship Safety Law:

- High Pressure Gas (Regulation Article 3 Notification of dangerous goods Appendix No. 1)
- ♦ Act on Port Regulations:
- Other dangerous goods / high pressure gas (Article21-2)

◇Road act:

• Restriction on the passage of vehicles (Article 19-13 of the Enforcement Order, Public Notice of Japan Highway Ownership and Debt Repayment Organization No. 12, Appended Table 2)

◎ This SDS is originally prepared for the use of the material in Japan, thus the stated laws and regulations are stipulated and carried out in Japan. The use of the material in other countries should be referred to and by application of the relevant laws and regulations of the country in which the material will be used.

#### 16. Other Information

Others

The information in this document is not intended to be exhaustive and is based on currently available information and data. The measures given in this document are applicable only to normal handling conditions. When handling this reference material under special conditions etc., it is recommended to take safety measures appropriate to each specific application and context of use. This document is intended to provide information and not intended to guarantee anything in handling this reference material.
