

Safety Data Sheet

1. Identification of the Substance/Mixture and the Supplier

Supplier	: National Institute of Advanced Industrial Science and Technology (AIST)		
Address	: 1-3-1 Kasumigaseki, Chiyoda, Tokyo, Japan		
Office in Charge	: Reference Materials Office, Center for Quality Management of Metrology, National Metrology Institute of Japan		
Person in Charge	: Certified Reference Material Staff		
Telephone No.	: +81-29-861-4059	Fax No.	: +81-29-861-4009
Emergency Contact	: Same as above		
		Creation date	: February 28, 2020
		Revised on	: June 14, 2021
		ID Number	: 5133001
Identity of Substance/Mixture	: Certified Reference material, NMIJ CRM 5133-a Secondary Electrolytic Conductivity Standard Solution – Aqueous Solution of Potassium Chloride (0.01 mol kg ⁻¹)		
Recommended Use of the Chemical and Restriction on Use	: This reference material can be used for the calibration of electrolytic conductivity. This material shall not be used for purposes other than testing and research.		

2. Hazards Identification

GHS classification	: Classification not possible
GHS-labeling	: -
Element	
Signal word	: -
Hazard and toxicity information	: -
Cautionary statement	: [Safety Measures] Wear personal protective equipment. [Emergency Measures] Eye contact: Carefully rinse with water for several minutes. Then, if using contact lenses, remove if possible and continue rinsing. If eye irritation persists, seek medical attention. Skin contact: Wash with plenty of water. Inhalation: Move to fresh air and rest in a position that allows for easy breathing. In case of continued breathing-related symptoms, contact a physician. [Storage] Seal in a glass container and store in a clean area at a temperature between 15 °C and 30 °C. [Disposal] Follow the pertinent regulations and ordinances established by the

local government.

Use a waste-treatment firm certified by prefectural governor.

Classification is impossible or not applicable for hazards not mentioned above.

3. Composition/Information on Ingredients

Single substance or mixture	: Mixture
Chemical name	: Electrolytic Conductivity of the Standard Solution (Aqueous Solution of Potassium Chloride (0.01 mol kg ⁻¹))
Ingredient (1)	: Water
Amount	: Over 99 %
Chemical formula	: H ₂ O
Molecular weight	: 18.02
Official Gazette Reference No.	: Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. : -
	: Industrial Safety and Health Act : -
CAS number	: 7732-18-5
Ingredient (2)	: Potassium chloride
Amount	: Approximately 0.07%
Chemical formula	: KCl
Molecular weight	: 74.55
Official Gazette Reference No.	: Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc. : (1)-228
	: Industrial Safety and Health Act : -
CAS number	: 7447-40-7

4. First-aid Measures

Eye contact	: Immediately rinse with plenty of water for 15 minutes or more. In case of symptoms, seek medical attention.
Skin contact	: Wash with soap and plenty of water.
Inhalation	: Move to fresh air and gargle. Keep warm and rest.
Ingestion	: Drink plenty of water and induce vomiting. In case of symptoms, seek medical attention.
Estimated acute and late symptom	: -
Most important symptoms and effects	: -
Protection of first-aiders	: -

5. Fire-fighting Measures

- Extinguishing media : As this product is incombustible, use extinguishing media suitable for peripheral fire.
- Specific hazards with regard to fire-fighting : None
- Specific methods of fire-fighting : Eliminate the origin of fire and put the fire out with extinguishing media. If possible, move containers to a safe place. If not, cool the peripheral areas with water spray.
- Protection for firefighters : Work from the windward side to prevent the inhalation of toxic gas. Use fire-prevention clothing, fireproof clothing, fire-protection clothing, respirator, circulating oxygen breathing apparatus, rubber gloves, rubber boots, and other appropriate protective equipment.

6. Accidental Release Measures

- Personal precautions : Wear appropriate protective equipment to avoid exposure to skin, eyes, and clothing.
- Protective equipment and emergency measures : When accidental release takes place indoors, thoroughly clear the air until emergency measures are complete. Before beginning, wear appropriate protective equipment to protect skin from droplets and to prevent inhalation of dust and gas.
- Environmental precautions : Prevent the released product from being drained into a river or other area that might cause environmental damage. Prevent the polluted discharge from being drained into the environment without being processed properly.
- Recovery and neutralization : Absorb the leaked solution with a wet cloth, a dust cloth, sand, or some other absorbent, and collect in an empty container. Then, wash the area with plenty of water.
- Prevention of secondary accidents : Surround the area with a rope or some other marker to prevent unauthorized people from entering the area. Work from the windward side and evacuate people to the leeward side.

7. Handling and Storage

Handling

- Technical measures : None
- Local ventilation and general ventilation : In case steam or mist is generated, seal the source and provide local exhaust ventilation.
- Precautions for safe handling : Avoid rough handling such as dropping, shocking, dragging, or otherwise agitating the container.
Do not cause the substance to leak, overflow, or drift, and prevent steam from being generated.
Seal the container after use.
Wash hands, face, and other necessary parts thoroughly, and

gargle after handling.

Do not eat, drink, or smoke in places other than the designated areas.

Do not bring gloves and other contaminated protective equipment into the break area.

Only authorized people should be allowed in the handling area.

Wear appropriate protective equipment to prevent inhalation, or contact with eyes, skin, or clothing.

When handling indoors, provide local exhaust ventilation.

Storage

- Appropriate storage conditions : Seal in a glass container and store in a clean area at a temperature between 15 °C and 30 °C.
- Safe packaging materials : Glass

8. Exposure Controls/Personal Protection

Standard control concentration

N/A

Threshold limit values

- ACGIH TLV-TWA : N/A
- Value recommended by Japanese Society of Occupational Health : N/A

Japanese Society of Occupational Health

- OSHA PEL TWA : N/A

Engineering controls

- Ventilation and emission : Local ventilation equipment or general ventilation equipment
- Safety management and gas detection : Measuring device, detection tube
- Storage precautions : Provide safety shower and hand/eye-washing equipment near the handling location. Location of this equipment should be clearly displayed.

Protective equipment

- Respiratory protection : Protective mask, respirator
- Hand protection : Protective gloves
- Eye protection : Protective glasses
- Skin and body protection : Protective clothing, protective long boots

Hygiene measures

Handle in accordance with industrial hygiene and safety standards.

9. Physical and Chemical Properties

- Appearance, etc. : Liquid
- Color : Colorless and clear
- Odor : No smell
- pH : No data

- Melting point : No data
- Boiling point : No data
- Flashing point : Incombustible
- Explosive range : No data
- Vapor pressure : No data
- Relative vapor density(Air=1) : No data
- Specific gravity or bulk specific gravity : No data
- Solubility : Mix with water at given proportions. White precipitate (potassium chloride) is generated in ethanol.
- *n*-Octanol/water partition coefficient (Log Po/w) : No data
- Auto-ignition temperature : Incombustible
- Decomposition temperature : No data
- Flammability : Incombustible

10. Stability and Reactivity

◇Stability

- Stable under normal conditions.

◇Reactivity

- No data

◇Conditions to avoid

- Contact with sunlight and heat.
- Contact with a substance that generates inflammable gas through interaction with water.

◇Hazardous decomposition products

- Halide, potassium oxide

11. Toxicological Information

[As potassium chloride]

Acute toxicity	Oral rat LD50: 2600 mg/kg
Carcinogenicity	Insufficient data. Although a two-year oral administration trial for rats revealed no carcinogenicity, data from a single animal is insufficient for classification.
Genotoxicity	Although no negative impacts on biogenesis during the organ development phase were observed during the oral administration testing of pregnant rats and mice, data on sexual functions and reproductive potential of the parent animals are insufficient for classification.
Specific target organ/systemic toxicity (repeated exposure)	A two-year oral administration trial for male rats revealed gastritis as the only adverse effect, with a NOAEL of 1820 (mg/kg)/day. All adverse effects observed in a 105-day oral administration trial for female rats were observed with a NOAEL of 520 (mg/kg)/day and were recovered and not severely

toxic. The dosage for these tests exceeds the upper limit for classification 2. No negative impacts were identified in human oral administration at 85 (mg/kg)/day for four weeks or 69 (mg/kg)/day for six weeks.

12. Ecological Information

[As potassium chloride]

Degradability/Concentration

- No data

Bioaccumulation

- No data

Ecotoxicity

- Crustacea (Daphnia magna) 48-hour LC50: 660 mg/L

13. Disposal Considerations

Residues : Small amount: Dilute with plenty of water and dispose as effluent.
Large amount: Use a waste-treatment vendor certified by a prefectural governor.

To dispose, follow the pertinent regulations and ordinances established by the local government.

Contaminated containers and packaging : To dispose of an empty container, completely remove the contents.

14. Transport Information

UN Dangerous : Not applicable

Goods Number

UN : Not applicable

classification

Product name : -

Packing group : -

ICAO/IATA : -

Marine : Not applicable

pollutant

Matters to be attended to : Avoid direct sunlight. Prevent leakage caused by overturning, falling, and other disruptions. Transport with caution.

15. Regulatory Information

◇Act Relating to the Prevention of Marine Pollution and Maritime Disaster

- Appendix 1 of the Enforcement Order: Hazardous Liquid Substances (Group Z)

16. Other Information

Other

The information in this document is not intended to be exhaustive and is based on currently available information and data. The measures given in this document are applicable only to normal handling conditions. When handling this reference material under special conditions etc., it is recommended to take safety measures appropriate to each specific application and context of use. This document is intended to provide information and not intended to guarantee anything in handling this reference material.
