# Certificate of Accreditation

International Accreditation Japan (IAJapan) hereby accredits the following conformity assessment body as a Reference Material Producer of ASNITE accreditation program.

Accreditation Identification: ASNITE 0001 RMP

Name of Conformity Assessment Body: National Metrology Institute of Japan,  
National Institute of Advanced Industrial Science and Technology

Name of Legal Entity: National Institute of Advanced Industrial Science and Technology

Location of Conformity Assessment Body: 1-1-1 Umezono, Tsukuba-shi, Ibaraki 305-8563, JAPAN

Scope of Accreditation: as the following pages

Accreditation Requirement: ISO 17034:2016\*

\* The relevant accreditation requirements described in the ASNITE-R (NMI) Accreditation Scheme Document are also applied.

Effective Date of Accreditation: 2019-11-01

Expiry Date of Accreditation: 2024-10-31

Date of Initial Accreditation: 2003-10-09

- 
- International Accreditation Japan (IAJapan) is an RMP accreditation body which has signed MRAs of ILAC (International Laboratory Accreditation Cooperation) and APAC (Asia Pacific Accreditation Cooperation).
  - MRA requirements are, in addition to relevant international standards and guides, requirements for participation in proficiency testing programs, surveillance and reassessment, and the policy on the traceability of measurement for MRA purpose.
  - This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system in accordance with the recognized International Standard ISO 17034:2016.
  - The latest accreditation information is publicly available on IAJapan Website as an accreditation certificate.
