

Application for Japanese Type Approval Utilizing OIML Certificate of Conformity

Issued in accordance with OIML R76

1. Type Approval Application

Manufacturers, importers and foreign manufacturers, who are going to apply Japanese type approval of non-automatic weighing instruments (NAWIs) utilizing an OIML Certificate of Conformity under the OIML Certificate System (hereafter referred to as OIML Certificate) or an OIML Certificate of Conformity under the conditions of MAA (hereafter referred to as OIML-MAA Certificate), are kindly requested to submit the following items in compliance with Article 76 of the Measurement Law.

Items to be Submitted:

- a) Application form (Form 7 in the Regulation of Verification and Inspection of Specified Measuring Instruments)
- b) Sample of the type of the certified NAWI (*)
- c) OIML Certificate attached with OIML Test Reports or OIML-MAA Test Reports validated by OIML-MAA Certificate
- d) Construction drawings and other related document
- e) Application fee (Regarding the fees and payment, please refer to the article on our website).

2. Data Verification

If necessary, NMIJ will verify the data on OIML Certificate attached with OIML Test Reports or OIML-MAA Test Reports validated by OIML-MAA Certificate by checking a sample provided by applicants. No additional charge shall be imposed.
